

Wangaratta Primary School

Child Safe: Good Leadership & Governance in Child Safe Organisations

This policy was last updated in February 2020 and should be reviewed every year.

The child safe standards require organisations that provide services for children to have strategies to embed an organisational culture of child safety, including through effective leadership arrangements. Protecting children from abuse is everybody's business, and an organisation's leadership is essential to instilling a child safety culture.

Leadership in a child safe environment

Working with children can be very rewarding, and it brings additional responsibilities. At Wangaratta Primary School we protect children from abuse and build an environment where children feel respected, valued and encouraged to reach their full potential. This requires a culture of child safety to be embedded throughout our organisation so that child safety is part of everyone's everyday thinking and practice. Such a culture is achieved through proactive leadership in demonstrating the appropriate values, attitudes and behaviours of an organisation.

A child safe environment is the product of a range of strategies and initiatives. Wangaratta Primary School fosters a culture of openness, inclusiveness and awareness. Children and adults should know what to do if they observe or are subject to abuse or inappropriate behaviour.

Wangaratta Primary School is committed to the safety and wellbeing of all children and young people. This will be the primary focus of our care and decision-making with particular attention paid to the cultural safety of Aboriginal and Torres Strait Islander children, children from culturally and/or linguistically diverse backgrounds, as well as the safety of children with a disability, and vulnerable children.

Governance in a child safe environment

At Wangaratta Primary School Leadership takes preventative, proactive and participatory approaches to child safety issues. The safety and wellbeing of children is a paramount consideration when developing activities, policies and management practices.

Leadership Team responsibilities

Leadership is responsible for embedding the culture of "child safety" at Wangaratta Primary School, including using the following strategies. The Leadership Team takes the lead in protecting children from abuse, and is made aware of child abuse allegations and risks and takes responsibility for ensuring an appropriate response.

We ensure that all allegations of child abuse and child safety concerns are treated very seriously. This includes complying with all legal requirements, including reporting suspicions of child abuse to police and/or child protection. If you believe a child is at immediate risk of abuse phone 000.

STRATEGIES

Identify and analyse risk of abuse

Wangaratta Primary School has approaches to prevent, detect and respond to child abuse risks. This includes a risk management strategy and policy that sets out how our organisation identifies, assess, and takes steps to reduce or remove child abuse risks.

Develop a child safe policy

Wangaratta Primary School has a child safe policy which outlines our commitment to promoting children's wellbeing and protecting children from abuse.

Develop codes of conduct

Wangaratta Primary School has a professional code of conduct for teachers. We also have a code of conduct which specifies the standards of conduct and care required when working, volunteering and interacting with children.

Choose suitable employees and volunteers

Wangaratta Primary School takes all reasonable steps to ensure that it engages the most suitable and appropriate people to work with children. This includes police record and identity checks, Working with Children Check, face to-face interviews and detailed reference checks from previous employers, including from the applicant's most recent line manager.

Support, train, supervise and enhance performance

Wangaratta Primary School ensures all staff and volunteers who work with children are inducted and have ongoing supervision, support and training, so that their performance is developed and enhanced to help protect children from abuse. The Child Safety Officer is the Principal and has knowledge of child safety issues, and is a point of contact for others who have questions or concerns or want to report an allegation of abuse. The Principal ensures all staff have relevant Working with Children's Checks or current VIT registration. The Business Manager is responsible for ensuring all volunteer Working with Children Checks (WWCC) Records are accurate and up to date and admin staff are responsible for ensuring the volunteer inductions and associated Child Safe Code of Conduct sheets are signed. Admin staff are also responsible for ensuring all Contractors have current WWCC if applicable.

Promote inclusion

Wangaratta Primary School is inclusive to all children and families and supports:

- cultural safety for Aboriginal and Torres Strait Islander children, for example by working in partnership with Aboriginal and Torres Strait Islander peoples and Aboriginal and Torres Strait Islander community controlled organisations
- cultural safety for children from culturally and/or linguistically diverse backgrounds, for example by using inclusive language and images in policy documents, and communications such as the website and newsletters
- the safety of children with a disability, for example by ensuring our organisation is accessible to everyone and ensuring appropriate training and supervision of staff and volunteers working with children with a disability.
- the safety of vulnerable children Empower and promote the participation of children in decision-making.

Wangaratta Primary School promotes the involvement and participation of children in developing and

maintaining child safe environments. We listen to children and take them seriously, particularly if they are disclosing abuse or concerns for their safety or the safety of other children.

Further information

Further information on child safe standards can be found on the Department of Health and Human Services website:

<http://www.dhs.vic.gov.au/about-the-department/plans,-programs-and-projects/projects-and-initiatives/children,-youth-and-family-services/creating-child-safe-organisations>

Additional resources for organisations in the child safe standards toolkit can be found on the Department of Health and Human Services website:

<http://www.dhs.vic.gov.au/about-the-department/documents-and-resources/policies,-guidelines-and-legislation/child-safe-standards>

In particular, An Overview to the Victorian child safe standards, has information to help organisations understand the requirements of each of the child safe standards, including examples of measures organisations can put in place, a self-audit tool and a glossary of key terms:

http://www.dhs.vic.gov.au/data/assets/word_doc/0005/955598/Child-safe-standards_overview.doc

Note for registered schools: a forthcoming Ministerial Order under the Education and Training Reform Act 2006 will contain the minimum actions that schools must take to meet each of the child safe standards. There will be a lead in time before regulation will commence to allow schools time to prepare. The Department of Education and Training and the Victorian Registration and Qualifications Authority will provide information and materials specifically for schools to assist with capacity building and compliance.
